## **About Radin Company**

Dordaneh Company is one of the reputable and well-known companies in Iran specializing in the production of various dates and their derivatives. Founded with the aim of providing natural and high-quality products, the company has managed to establish a special position in both domestic and export markets in recent years. The Dordaneh team, leveraging the experience and knowledge of its specialists, strives to source the best types of dates from various regions of the country, especially from the tropical areas where conditions are suitable for date cultivation. The mission of this company is to produce high-quality products while maintaining international standards in the production process

Dates, a fruit with a sweet taste and unique properties, hold a special place not only in Iranian culinary culture but also in global markets. Dates and their products are recognized as a nutritious food source and have influenced both domestic and foreign markets due to their therapeutic properties and diverse applications in various industries. Dordaneh's products include fresh and dried dates, date syrup, date powder, and other by-products that have attracted consumers due to their nutritional and health benefits

## **Products**

The experienced team at Dordaneh proudly offers a variety of dates and date products with the best and highest quality in diverse packaging and desired volumes for customers around the world

### **Mazafati Date**
